DOHA, QATAR - 29/10/2018: Mesaieed Petrochemical Holding Company (“MPHC” or “the group”; QE: MPHC), a subsidiary of Qatar Petroleum and one of the region’s premier diversified petrochemical conglomerates with interests in the production of olefins, polyolefins, alpha olefins and chlor-alkali products, announced its financial results for the period ended 30 September 2018 with net profit of QR 1 billion.

Financial Results

MPHC reported a net profit of QR 1 billion for the period ended 30 September 2018 with earnings per share of QR 0.82, outperforming the net profit of QR 806 million and earnings per share of QR 0.64 during the corresponding period of the previous year by QR 222 million or 28%. The increase in profit was driven by improved selling prices by 13% and increased sales volumes by 5%, as the previous year witnessed planned turnaround in one of the group companies’ plants. The groups’ profit for the period was also aided by the recognition of a tax refund of approximately QR 98 million for the period. The group continued to benefit from the supply of competitively priced ethane feedstock and fuel gas under long-term supply agreements. This contracting arrangement is an important value driver for the group’s profitability in a challenging market.

The closing cash position after the first nine months of operations was a robust QR 1.5 billion as at 30 September 2018. The total assets at 30 September 2018 was QR 14.9 billion, compared to QR 14.8 billion as at 31 December 2017.

As compared to the previous quarter, the net profit was up by QR 52 million or 17%, as the previous quarter witnessed planned annual maintenance shutdown in one of the group companies’ plants.
