

Mesaieed Petrochemical Holding Company IR Presentation 30 September 2023

"one of the region's premier diversified petrochemical conglomerates with interests in the production of olefins, polyolefins, alpha olefins and chlor-alkali products"

Disclaimer

The companies in which Mesaieed Petrochemical Holding Company Q.P.S.C. directly and indirectly owns investments are separate entities. In this presentation, "MPHC" and "the group" are sometimes used for convenience in reference to Mesaieed Petrochemical Holding Company Q.P.S.C.

This presentation contains forward-looking statements concerning the financial condition, results of operations and businesses of Mesaieed Petrochemical Holding Company Q.P.S.C. All statements other than statements of historical fact are deemed to be forward-looking statements, being statements of future expectations that are based on current expectations and assumptions, and involve known and unknown risks and uncertainties that could cause actual results, operations and business performance or events impacting the group to differ materially from those expressed or as may be inferred from these statements.

There are a number of factors that could affect the realisation of these forward-looking statements such as: (a) price fluctuations in crude oil and natural gas, (b) changes in demand or market conditions for the group's products, (c) loss of market share and industry competition, (d) environmental risks and natural disasters, (e) changes in legislative, fiscal and regulatory conditions, (f) changes in economic and financial market conditions and (g) political risks. As such, results could differ substantially from those stated, or as may be inferred from the forward-looking statements contained herein. All forward-looking statements contained in this presentation are made as of the date of this presentation.

Mesaieed Petrochemical Holding Company Q.P.S.C., its Directors, officers, advisors, contractors and agents shall not be liable in any way for any costs, losses or other detrimental effects resulting or arising from the use of or reliance by any party on any forward-looking statement and / or other material contained herein. Mesaieed Petrochemical Holding Company Q.P.S.C., its joint ventures are further in no way obliged to update or publish revisions to any forward-looking statement or any other material contained herein which may or may not be known to have changed or to be inaccurate as a result of new information, future events or any reason whatsoever. Mesaieed Petrochemical Holding Company Q.P.S.C. does not guarantee the accuracy of the historical statements contained herein.

GENERAL NOTES

Mesaieed Petrochemical Holding Company's accounting year follows the calendar year. No adjustment has been made for leap years. Where applicable, all values refer to Mesaieed Petrochemical Holding Company's share. Values expressed in US 's have been translated at the rate of US 1 = QR3.64.

DEFINITIONS

Cash Realisation Ratio: Cash Flow From Operations / Net Profit x 100 • Debt to Equity: (Current Debt + Long-Term Debt) / Equity x 100 • Dividend Yield: Total Cash Dividend / Closing Market Capitalisation x 100 • EDC: Ethylene Dichloride • EPS: Earnings per Share (Net Profit / Number of Ordinary Shares outstanding at the year end) • EBITDA: Earnings Before Interest, Tax, Depreciation and Amortisation • Free Cash Flow: Cash Flow From Operations - Total CAPEX • HCL: Hydrochloric Acid • HDPE: High Density Polyethylene • NAO: Normal Alpha Olefins • NaOH: Caustic Soda • MT / PA: Metric Tons Per Annum • Payout Ratio: Total Cash Dividend / Net Profit x 100 • P/E: Price to Earnings (Closing market capitalisation / Net Profit) • Utilisation: Production Volume / Rated Capacity x 100 • VCM: Vinyl Chloride Monomer

About MPHC

MPHC at a glance

Overview

- Mesaieed Petrochemical Holding Company Q.P.S.C. ("MPHC" or "the Group"; QE ticker: MPHC) was incorporated on May 29, 2013 and was listed on the Qatar Stock Exchange on February 26, 2014.
- MPHC is among top 10 companies at Qatar Exchange by Market Capitalization.
- QatarEnergy provides most head office functions through a comprehensive servicelevel agreement.
- The operations of joint ventures remained independently managed by their respective Boards of Directors and senior management teams.

Note: Shareholder data as of 30-September-23

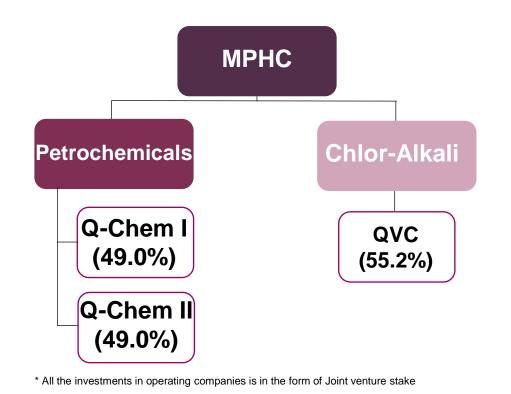

* Board of Directors approved to increase the FOL to 100%. Council of Ministers approval received; all necessary measures will be taken in this regard with the relevant concerned authorities.

Mes

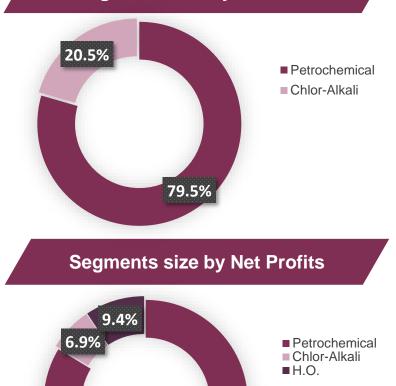

MPHC business segments at a glance

Business segments overview

- Through its joint ventures companies, MPHC operates in two distinct business segments: Petrochemical and Chlor-Alkali;
- Production facilities are located in the State of Qatar.

Segments size by Revenue

83.6% Note: Revenue and net profit data as of 30-September-23

Competitive strengths

Competitive strengths

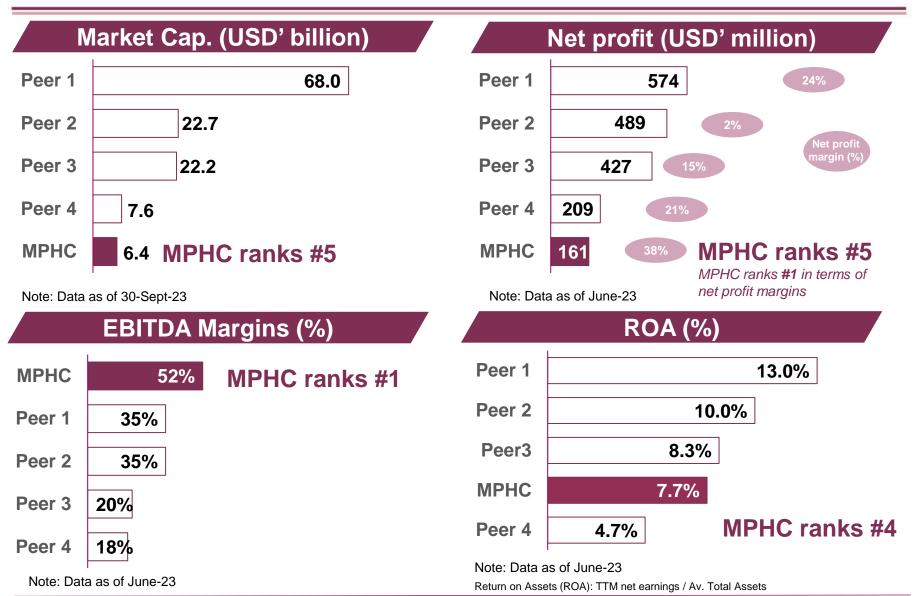

Regional peers review

MPHC ranked #80 among "2022 Forbes List of Top 100 Listed Companies in the Middle East"

Competitive positioning versus regional peers

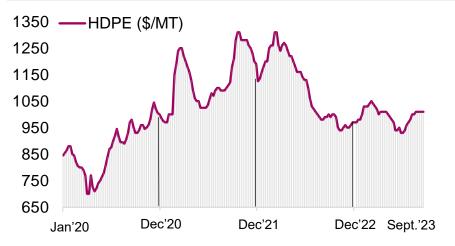

10 <u>Note:</u> Regional peers data include all listed companies in MENA region involved in production of petrochemicals and specialty chemicals, excl. fertilizers.

Macroeconomic updates

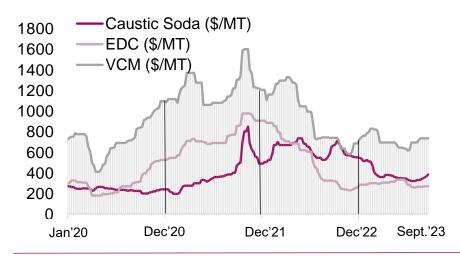

Macroeconomic updates

Petrochemicals

 The petrochemical sector's performance was negatively impacted throughout the year due to the slower global economic recovery, oil price volatility, and uncertainty in the global macro-outlook. Additionally, buyers' cautious approach was primarily linked to recessionary fears.

Chlor-Alkali

During 9M-23, prices for most of ٠ MPHC's chlor-alkali products exhibited bearish trends. Industries using these end-products, including alumina, aluminum, PVC, etc., continued to face challenges due to macroeconomic uncertainties. Sequentially, the chloralkali prices is displaying signs of gradual improvement, indicating а recovery phase might be underway.

12 Note: Market prices have been sourced from an international third-party trusted data provider with Asian benchmarks and may not reflect prices achieved by MPHC

MPHC results (For the nine-month period ended 30 September 2023)

9M-23 results at a Glance

vs. 9M-22

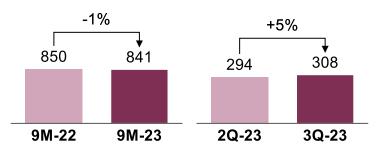

- Continued macroeconomic challenges are weighing down commodity prices, directly affecting the financial performance in the current period.
- Robust liquidity position with closing cash and bank balances amounting to QR 4.0 billion as of 30 September 2023.
- Qualifying Shareholders will be eligible according to the IPO prospectus to receive their final incentive share awards towards the end of this year.

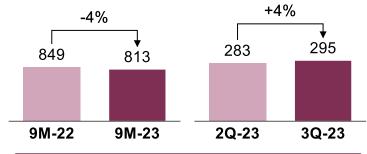

Operational performance review

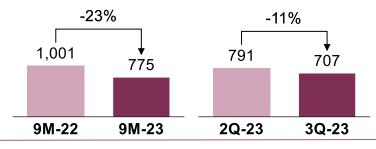

Production (MT' 000)

Sales volume (MT' 000)

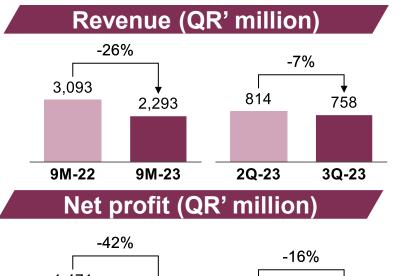

Selling prices (\$/MT)

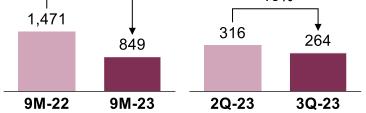

- <u>9M-23 vs 9M-22</u>: production for 9M-23 slightly declined versus 9M-22, mainly due to a maintenance turnaround carried out at QVC facilities during 1Q-23, which affected production volumes for 9M-23.
- <u>3Q-23 vs 2Q-23</u>: On a quarter-on-quarter basis production volumes for 3Q-23 increased by 5% in comparison to 2Q-23, mainly due to an incline noted in production volumes from both segments, linked to higher operating rates during the 3Q-23.
- <u>9M-23 vs 9M-22:</u> Sales volumes declined marginally by 4% versus 9M-22, mainly driven by lowered sales volumes reported by the chlor-alkali segment, being partially offset by higher volumes reported by the petrochemicals segment.
- <u>3Q-23 vs 2Q-23:</u> Sales volumes increased by 4% versus previous quarter, inline with higher production volumes.
- <u>9M-23 vs 9M-22</u>: year-on-year price trajectories declined due to subdued product demand along with excessive supply resulted in lowered commodity prices.
- <u>3Q-23 vs 2Q-23</u>: quarter-on-quarter prices declined due to supply-demand dynamics impacting the petrochemical market.

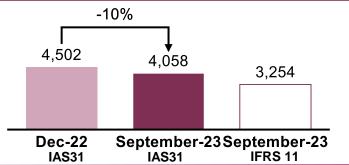

Financial performance review

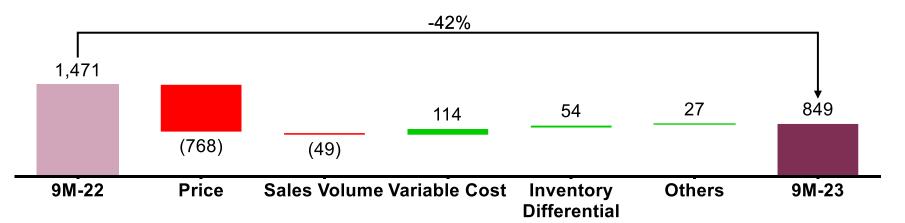

Cash & bank balances (QR' million)

- <u>9M-23 vs 9M-22:</u> revenue declined versus 9M-22, mainly due to lowered selling prices coupled with slight decline in sales volumes.
- <u>3Q-23 vs 2Q-23</u>: revenue declined on a quarter-onquarter basis, due to lower selling prices, partially offset by higher sales volumes.
- <u>9M-23 vs 9M-22</u>: Net profit declined in year-on-year bottom-line results reported on account of lower revenue.
- <u>3Q-23 vs 2Q-23:</u> Quarter-on-quarter results declined on account of lower selling prices, partially offset by higher sales volumes.
- MPHC's share of cash and bank balances declined from last year, mainly due to dividend payment for the financial year 2022, being partially offset by positive cash flow generation during 9M-23.

Net Profit Variance Analysis

Net profits decreased by **QR 622 million** (-42%) due to:

Unfavorable variance

- Lowered average realized blended selling prices (-23%);
- Lower sales volumes (-4%);

Favorable variance

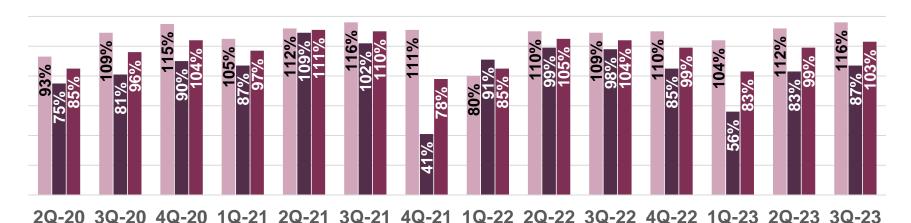

- Lower variable costs;
- Favorable inventory differential due to lower drawdowns;
- Other expenses are lowered primarily on account of saving in COGS and other expenses in QVC, as well as higher interest income.

Operating rates of MPHC segments remained stable

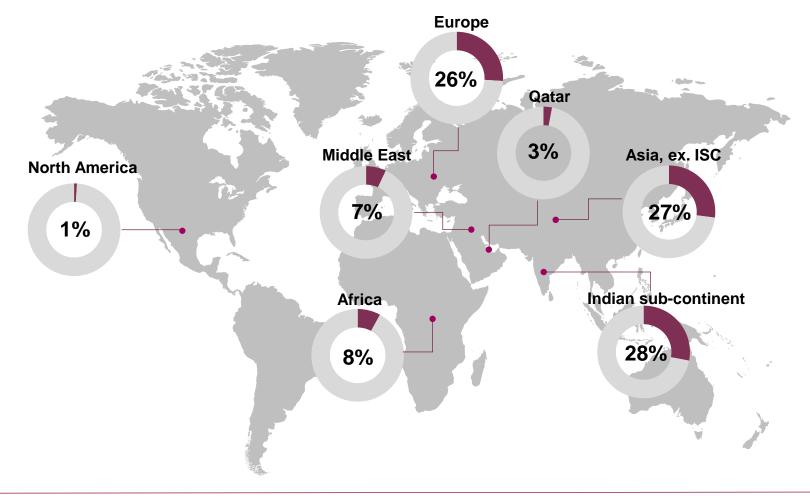

Petrochemicals Chlor-Alkali MPHC - Group

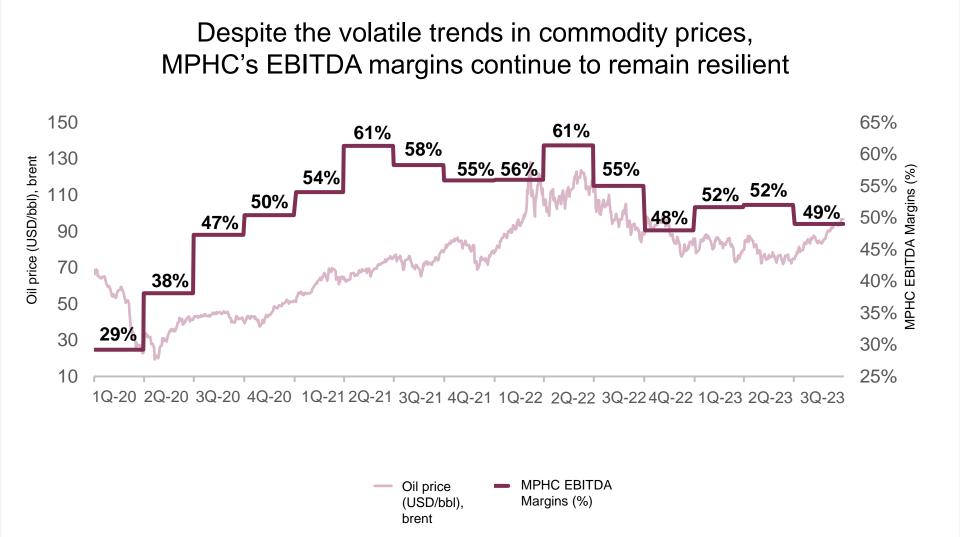

Geographic analysis – MPHC Group revenue

Asia including ISC remained MPHC's largest market, while its presence in Europe continued to be substantial

Robust EBITDA margins

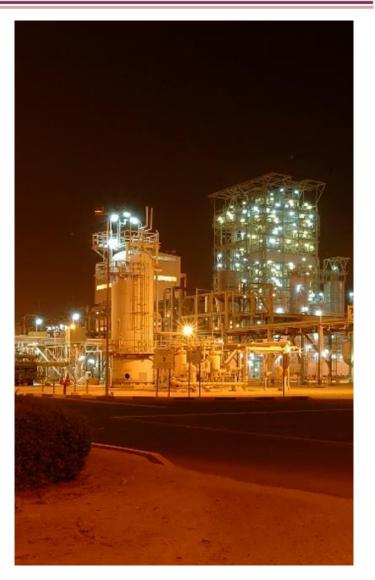

Segmental results (For the nine-month period ended 30 September 2023)

Segmental Details: Petrochemicals

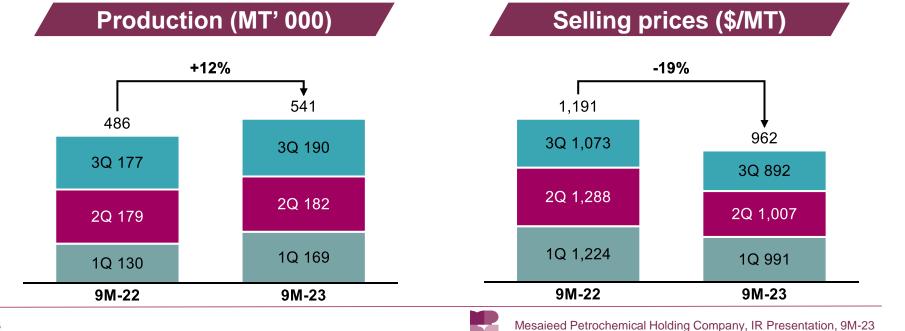

- Q-Chem and Q-Chem II are both owned 49% by MPHC, 49% by Chevron Phillips Chemical International Qatar Holdings L.L.C., and 2% by QatarEnergy;
- Q-Chem II also has an effective ownership of 53.85% in Ras Laffan Olefins Company Limited which owns an ethane cracker which provides ethylene feedstock to Q-Chem II;
- The companies in the segment are engaged in the production of a range of petrochemical products including:
 - HDPE: 397,000 MT PA (MPHC share);
 - NAO: 169,000 MT PA (MPHC share);
- All production facilities are based within the State of Qatar.

Segmental Details: Petrochemicals

- Production: Production up by 12% compared to 9M-22, as the segment carried out a planned periodic largescale turnaround at Q-Chem facilities during 1Q-22, which affected the overall production volumes for the segment for the same period of last year;
 - Production increased by 4% during 3Q-23 in comparison to 2Q-23, amid higher production due to better plant availability.
- Selling Prices: declined by 19% as compared to 9M-22, mainly due to macro-volatilities echoed from last year, which affected current period's price trajectories for most of the commodities in comparison to the same period of last year.
 - Selling prices declined by 11% during 3Q-23 compared to 2Q-23, as persistent fluctuations in the macroeconomic situation are causing ongoing volatility in the prices.

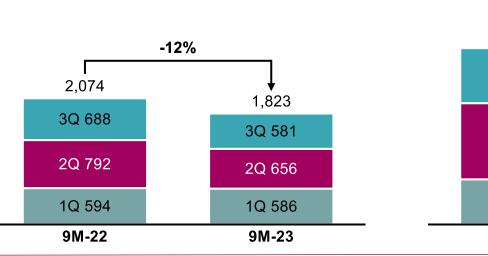

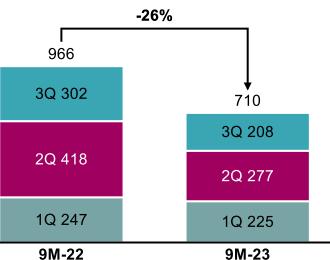

Segmental Details: Petrochemicals

- Revenue: QR 1.8 billion down by 12% as compared to 9M-22, due to lower selling prices (-19%) partially offset by higher sales volumes (+9%);
 - Revenue decreased due to (-11%) drop in selling prices, while sales volume remained flat against 2Q-23. Ongoing macroeconomic fluctuations continue to impact most commodities prices.
- Net profit: QR 710 million, down by 26% as compared to 9M-22, primarily driven by macro-challenges affecting selling prices negatively;
 - 3Q-23 net profit down by 25% as compared to 2Q-23, primarily driven by lower segmental revenue;

Revenue (QR' million)

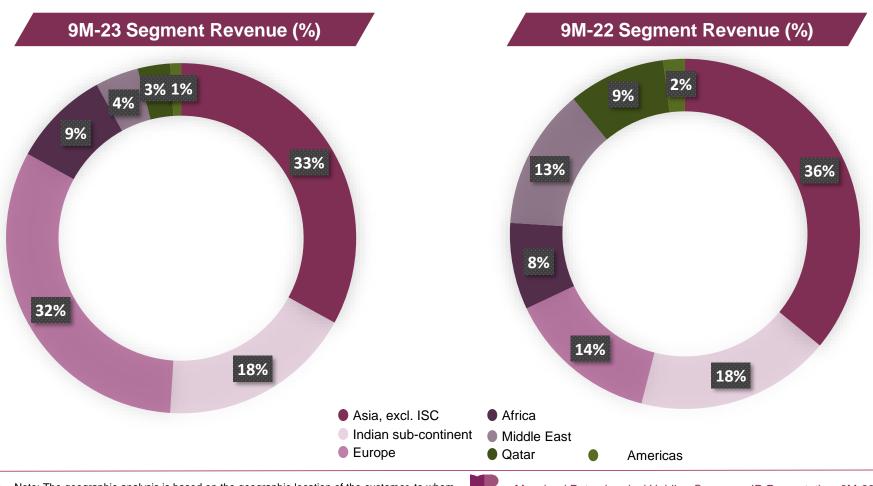

Net profit (QR' million)

Segmental Details: Petrochemicals

Asia & Europe remains a main market for Petrochemical segment

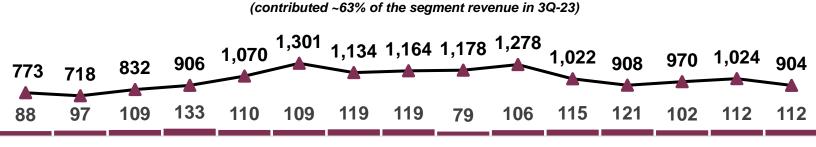

25 Note: The geographic analysis is based on the geographic location of the customer, to whom the sale is actually made by MPHC's entities directly or via Sales & Marketing partner.

• Commodity prices continued it downward trajectory since second half of 2022 mainly due to cautious approach from buyers and challenging macroeconomic climate.

- Qatar Vinyl Company Limited Q.S.C. ("QVC") is owned 55.2% by MPHC, 31.9% by Qapco and 12.9% by QatarEnergy;
- QVC's operations have been integrated with Qapco, bringing additional synergies to the group.
- The segment is engaged in the production of a range of chlor-alkali products
 - Caustic Soda: 215,000 MT PA (MPHC share);
 - Ethylene Dichloride ("EDC"): 110,000 MT PA (MPHC share);
 - Vinyl Chloride Monomer ("VCM"): 215,000 MT PA (MPHC share);
- All production facilities are based within the State of Qatar.

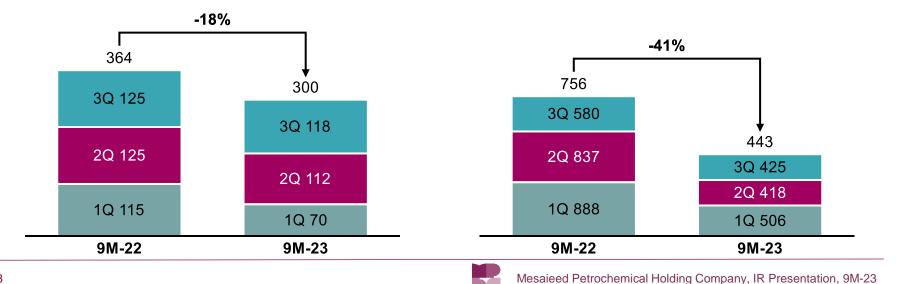

- Production: Production decreased by 18% as compared to 9M-22, as production during 1Q-23 was
 impacted by planned turnaround carried out at chlor-alkali facilities;
 - Production slightly improved by 2% versus 2Q-23, amid better plant availability.
- Selling Prices: declined significantly by 41% versus 9M-22, reflecting the slower than expected recovery phase in global activities across sectors associated with chlor-alkali.
 - Selling prices marginally increased by 2% versus 2Q-23, driven by a relatively enhanced chloralkali market, indicating a gradual recovery gaining momentum.

Production (MT' 000)

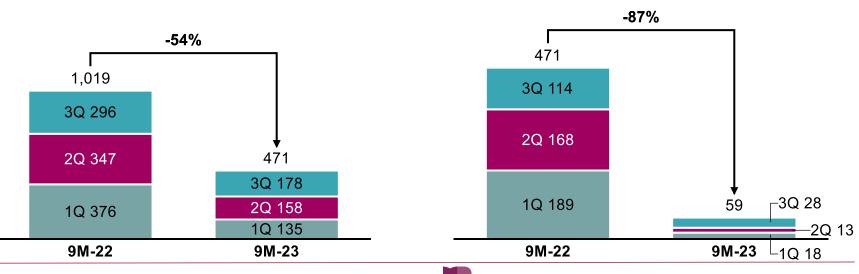

Selling prices (\$/MT)

- Revenue: QR 471 million, down by 54% as compared to 9M-22, mainly due to lower sales volumes (-21%), amid lower production, along with significantly lower selling prices (-41%);
 - Revenue for 3Q-23 inclined by 13% compared to 2Q-23, primarily driven by higher selling and sales volumes, which increased by (+2%) and (+11%), respectively.
- Net profit: QR 59 million significantly down by 87% as compared to 9M-22. Decline in profitability was
 mainly attributed to lowered segmental revenue.
 - Net profit increased significantly by 108% versus 2Q-23, on account of higher selling price and sales volume.

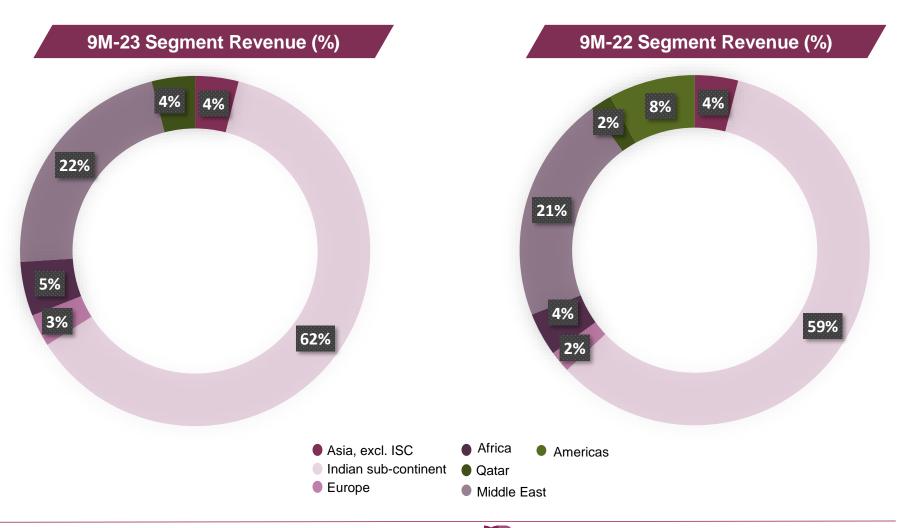

Revenue (QR' million)

Net profit (QR' million)

Segmental Details: Chlor-Alkali

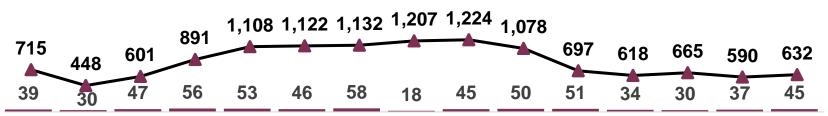

Indian sub-continent remain a main market for Chlor-Alkali segment

CAPEX (2023F - 2027F)

CAPEX (2023F – 2027F) – MPHC share

- Cumulative CAPEX spend of QR 1.8 billion across all segments during 2023-2027;
- o QChem/QChem II
 - CAPEX of QR 1.1 billion planned during 2023-2027;
 - Turnaround related CAPEX amounts to QR 423 million;
 - NAO tanks upgrade would require QR 30 million of CAPEX;
 - CAPEX relating to Dock jetty project would require QR 33 million;
 - NZLD related projects would require QR 162 million.

◦ QVC

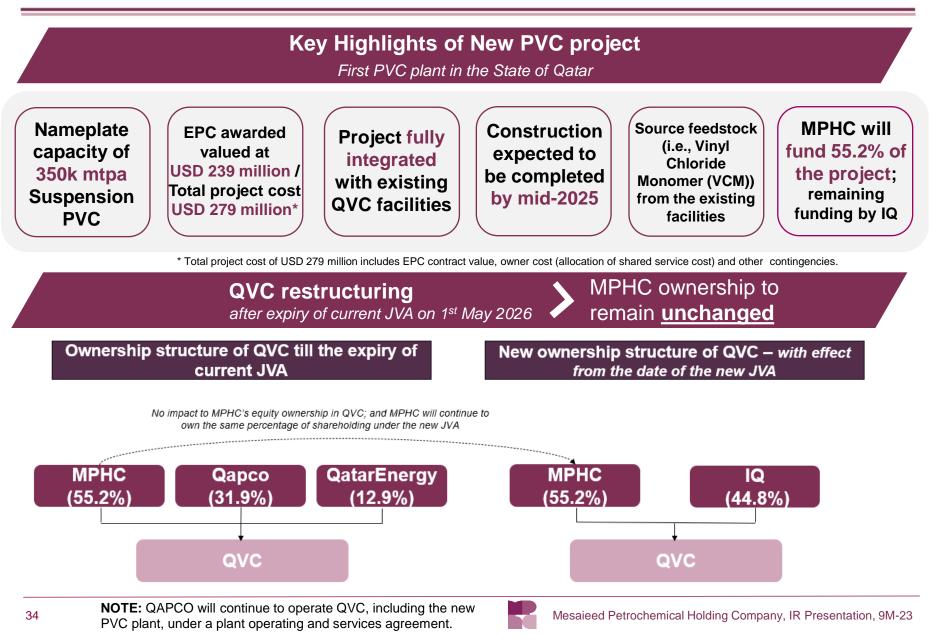

- QR 709 million CAPEX is planned for 2023-2027;
- PVC project would require QR 543 million.

CAPITAL EXPENDITURE - MPHC share (Amount in QAR million)						
Project name	Category	2023	2024	2025	2026	2027
Turnaround related CAPEX	Turnaround	5	26	82	202	107
Dock Jetty Upgrade (Q-Chem I)	Safety	33				-
NZLD related projects	Environment	42	21	61	37	-
NAO Tanks Upgrade (Q-Chem II)	Operational Necessity	11	7	6	6	-
PVC project (QVC)	Investment	195	206	142	•	-
Others		175	166	93	77	122
Total		461	427	384	323	229

Note: The CAPEX figures for the years 2023-27 are based on the 2023 approved budget and business plan, based on the expectations of the market conditions and commodity prices forecasted at the time of finalizing the 2023 budget & business plan.

With current market conditions and commodity price trends, the forecasts as disclosed in the above table cannot be relied on with absolute certainty, where, the actual realization of these figures might significantly differ as compared to these projections, subject to the macroeconomic conditions, including, among other factors, business environment, market dynamics, product prices etc. prevailing in that specific year. The Board may defer, delay or cancel projects based on market outlook and economics.

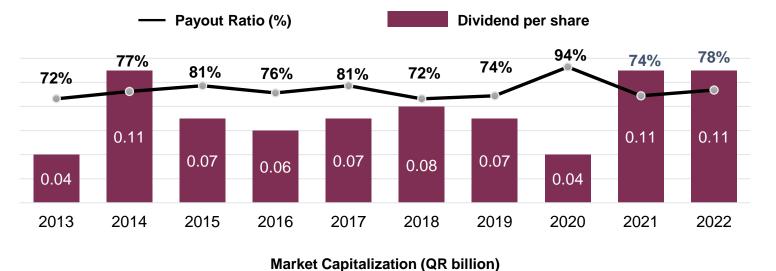

New PVC Project & QVC restructuring

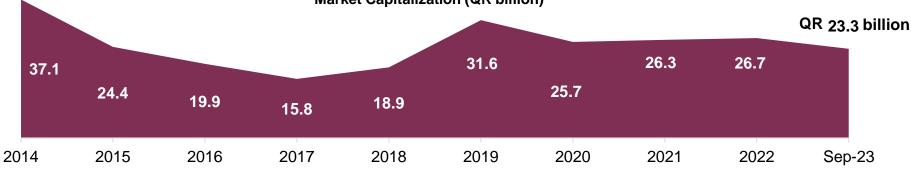

Dividends & Market Capitalization

Dividends & Market Statistics

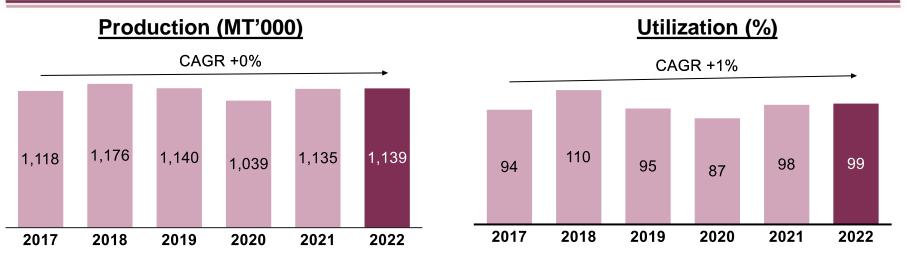

- To date, cash dividends totaling QR 9.6 billion have been distributed;
- MPHC was included in MSCI Index in May 2019.

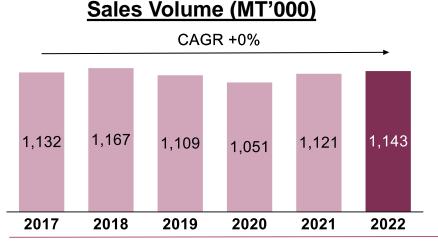

Historical performance (2017 – 2022)

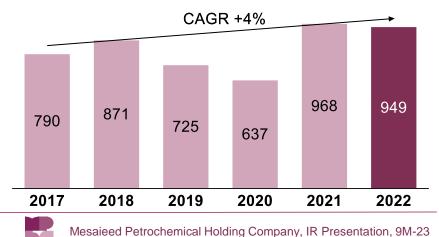

Historical performance (2017 – 2022)

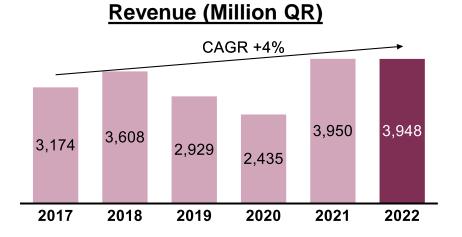

Production and sales volumes remained relatively stable • Utilization moved in line with the production levels • Selling prices reflected cyclical movements inline with the global commodity prices linked to macroeconomic conditions

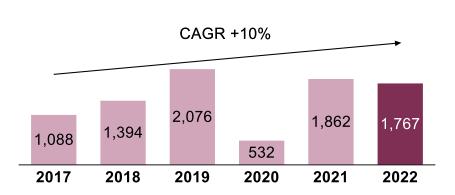

Average Product Price (USD / MT)

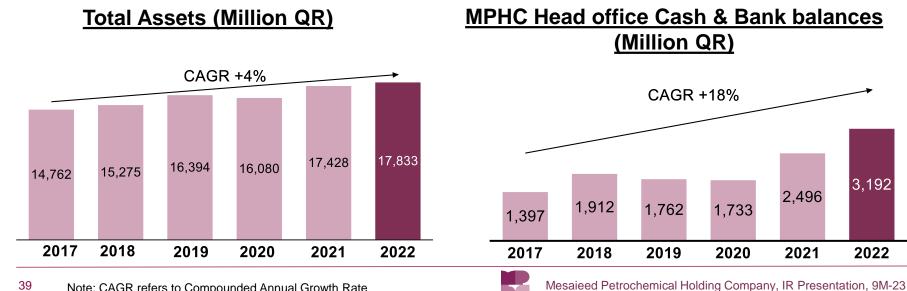

Historical performance (2017 – 2022)

Net Profit (Million QR)

Both revenue and net profit witnessed movements, in line with product prices • Total assets grew marginally, while the cash and cash equivalents remained robust

Governance Structure

Governance

Board Structure

- MPHC Board of Directors consists of seven (7) Directors, all of whom were appointed by the Special Shareholder, which is QatarEnergy.
- QatarEnergy appoints only qualified and eligible Board Directors who are sufficiently experienced to perform their duties effectively in the best interest of the Company and dedicated to achieving its goals and objectives.

Governance and Compliance

- MPHC is firmly committed to implementing the principles of good governance set out in the Governance Code for Companies Listed on the Main Market issued by Qatar Financial Markets Authority (QFMA), that are consistent with the provisions of the Company's AoA.
- The Board of Directors always ensures that an organizational framework, that is consistent with the legal and institutional framework of the listed companies, is in place at the Company level. This is achieved through a process of reviewing and updating governance implementation whenever required.

Board Committees

The Board of Directors established Board Committees and Special Committees to carry out specific tasks. The Board remains liable for all the powers and authorities so delegated. Currently, Board Committees are Audit Committee and Remuneration Committee.

Authorities

No one person in the Company has unfettered powers of decision. Decision-making process is always done in accordance with the Company's Manual of Authorities and the relevant regulations.

Governance

Remuneration

- Board of Directors
 - The Company has developed a periodically revisited remuneration policy for Board members. The policy has fixed component for Board membership and attending meetings and performance-related variable component. The proposed remuneration of Board members shall be presented to the General Assembly for approval.
- Executive Management
 - All financial, administrative and head office services are provided by resources from QatarEnergy under a service-level agreement

Disclosure and Transparency

The Board ensures that all disclosures are made in accordance with the requirements set by regulatory authorities, and that accurate, complete and non-misleading information is provided to all shareholders in an equitable manner.

Shareholders rights

The Company's Articles of Associations provide for the rights of shareholders, particularly the rights to receive dividends, attend the General Assembly and participate in its deliberations and vote on decisions, tag along rights as well as the right to access information and request it with no harm to the Company's interests.

Company's control system

- The Company adopted an internal control system that consists of policies and operating procedures for risk management, internal and external audit, monitoring Company's compliance with the relevant regulations. Clear lines of self-control, responsibility and accountability throughout the Company are therefore set.
- The internal control framework is overseen by the senior Executive Management, the Audit Committee and the Board of Directors.

Sales and Marketing

Sales and Marketing

- Qatar Chemical and Petrochemical Marketing and Distribution Company ("Muntajat"), a wholly-owned company of the government of the State of Qatar, has the exclusive rights to purchase, market, sell and distribute the State's production of petrochemical regulated products.
- Both of the segments' products are marketed by Qatar Chemical and Petrochemical Marketing and Distribution Company.
- Muntajat integration with QatarEnergy completed during 2020, only related to the operational level, where the marketing team would still be independently managed, hence, this integration will not have any impacts on MPHC.
